T.I.P.S.[™] (TIKOSYN IN PHARMACY SYSTEM)

Welcome to the T.I.P.S.[™] (Tikosyn In Pharmacy System) program. Pfizer is pleased that TIKOSYN[®] (dofetilide) is available to the retail pharmacy for dispensing. Pfizer recognizes that retail pharmacies help to ensure continuity of high-quality care as a link between patients and prescribers. Our goal is to facilitate patients' access to Tikosyn in the retail pharmacy.

Tikosyn is a class III antiarrhythmic indicated for the management of atrial fibrillation and atrial flutter for >7 days' duration. As described in the Tikosyn official US prescribing package insert (enclosed), to minimize the risk of induced arrhythmia, patients initiated or re-initiated on Tikosyn should be placed for a minimum of 3 days in a facility that can provide calculations of creatinine clearance, continuous electrocardiographic monitoring, and cardiac resuscitation. Tikosyn is available only to hospitals and prescribers who have received appropriate Tikosyn dosing and treatment initiation education.

Tikosyn is contraindicated with verapamil and cation transport inhibitors such as cimetidine, ketoconazole, trimethoprim (alone or in combination with sulfamethoxazole), prochlorperazine, hydrochlorothiazide (alone or in combinations such as with triamterene), and megestrol. Tikosyn is also contraindicated in patients with congenital or acquired QT syndromes, severe renal impairment, or known hypersensitivity to Tikosyn.

The T.I.P.S. program has been specifically designed to allow retail pharmacies to order, stock, and dispense Tikosyn. The first step is enrolling in the program.

THE ENCLOSED KIT CONTAINS EVERYTHING YOU NEED TO ENROLL AND PARTICIPATE IN T.I.P.S.

- T.I.P.S. procedures booklet: Step-by-step instructions for enrolling in T.I.P.S., ordering, and dispensing Tikosyn.
- T.I.P.S. program fax-back enrollment form: Please complete, sign, and fax the form to 1-800-788-2637.
- "Enroll, Order, and Dispense" magnetic reference piece: Please post this in your pharmacy as a reference of the T.I.P.S. program procedures and Tikosyn contraindications.
- T.I.P.S. stamp: For stamping each Tikosyn prescription.
- Tikosyn US package insert and Tikosyn patient package insert.

Please see enclosed professional and patient package inserts for additional information.
